

DocuWare

Profit from document
management and
workflow automation

Smart handling of documents and automating workflow steps can unlock new levels of employee effectiveness – without disruptive changes to an organization.

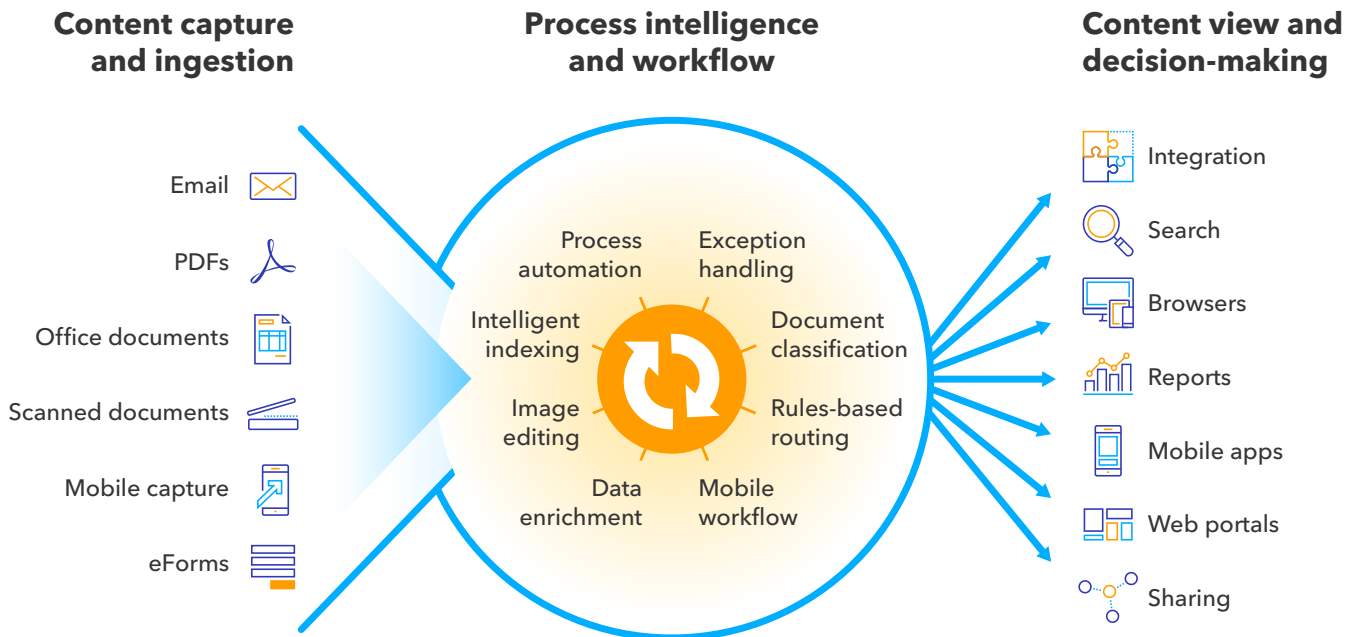

DocuWare document management and workflow automation can:

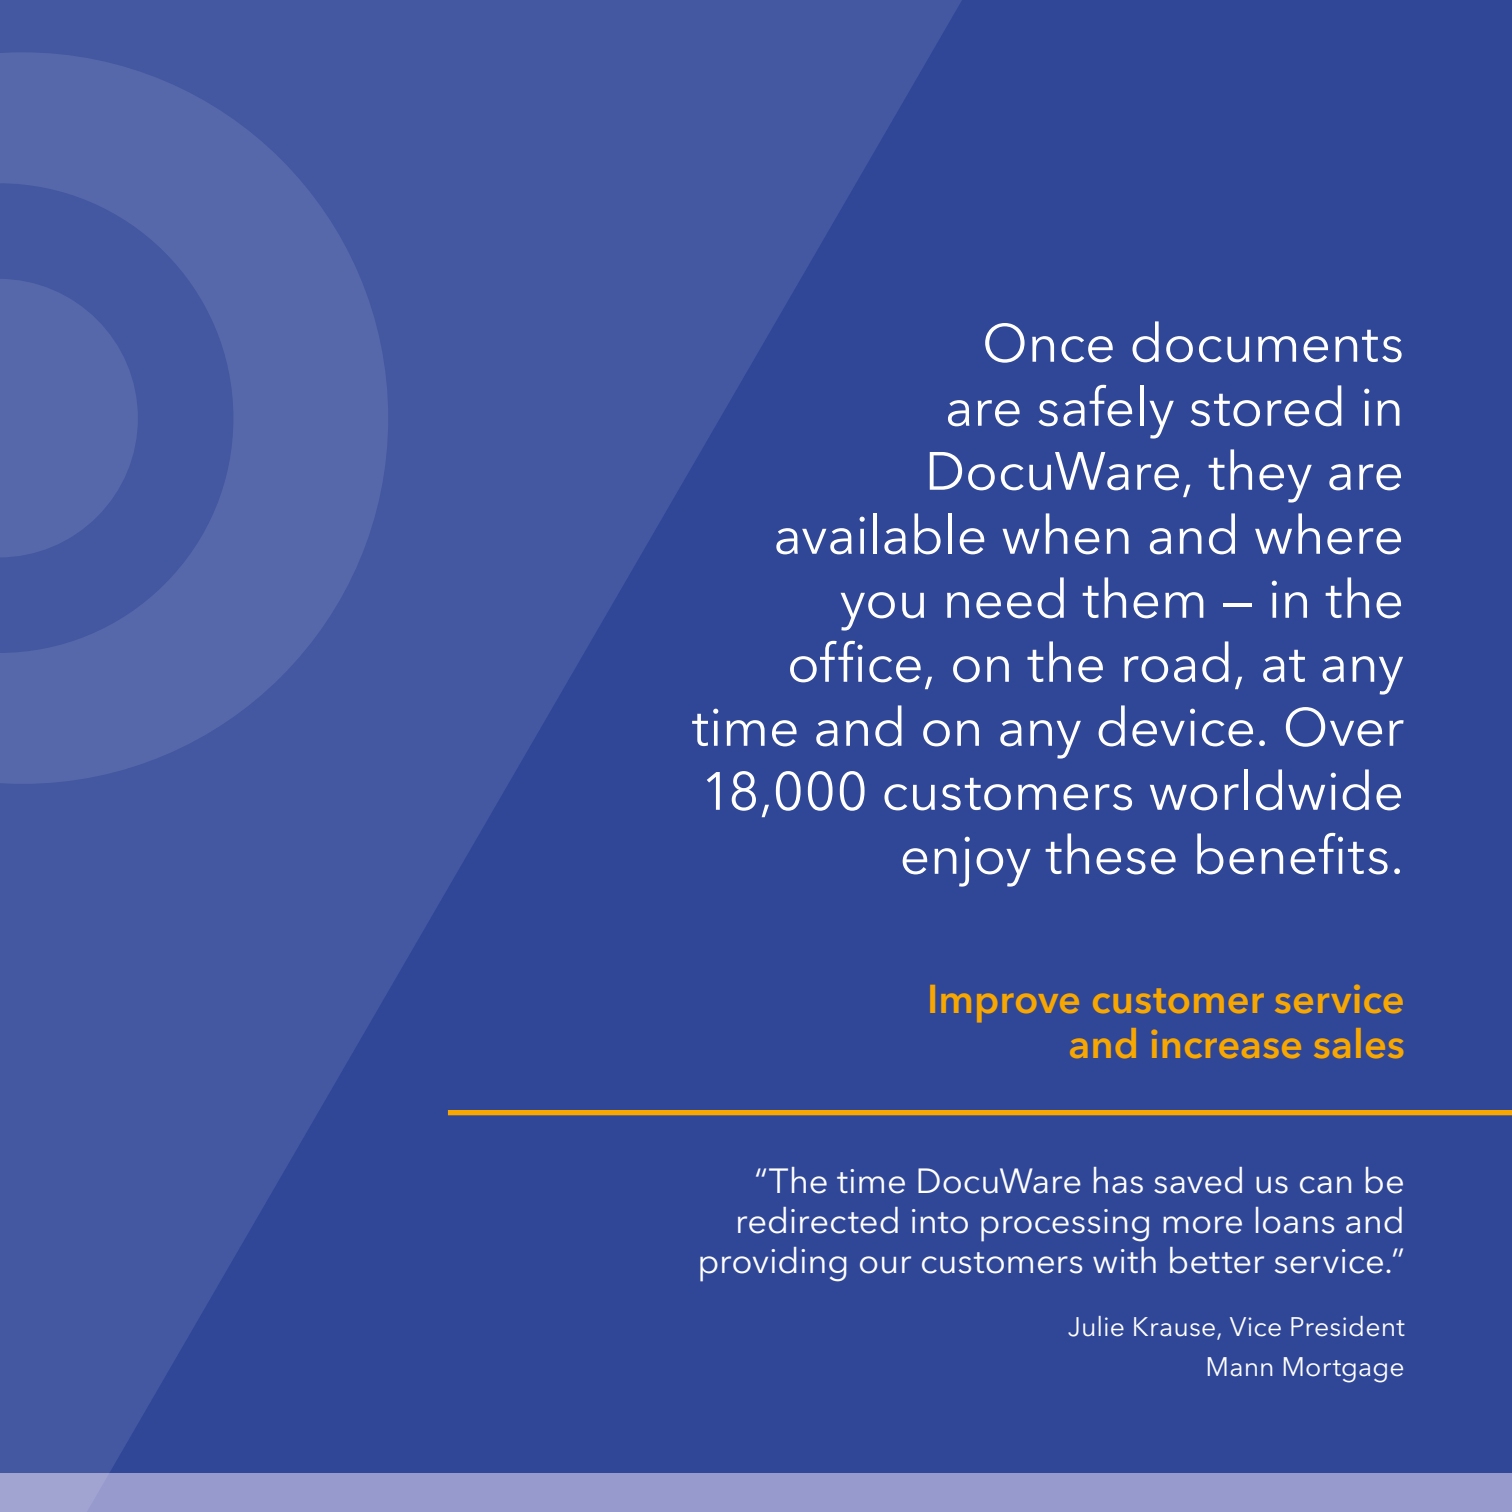

Here's how it works

DocuWare collects your documents into a single, secure, organized archive. Route documents through digital workflow, search on anything, and integrate with other key applications. All of this from within a fast, browser-based interface.

Once documents are safely stored in DocuWare, they are available when and where you need them – in the office, on the road, at any time and on any device. Over 18,000 customers worldwide enjoy these benefits.

**Improve customer service
and increase sales**

“The time DocuWare has saved us can be redirected into processing more loans and providing our customers with better service.”

Julie Krause, Vice President
Mann Mortgage
