ECOSYS MA2100cwf

Take your business to the **next level**

Keeping up in today's fast-paced business environment is no easy task. Even the smallest workspaces, whether they are in the office or remote locations, require the best tools. In addition to copy, print, scan and fax, you can now affordably optimize and empower your workforce to expand your business.

The ECOSYS MA2100cwf and ECOSYS PA2100cwx Series from Kyocera helps you outpace the competition with features like high-res vivid color, standard duplex and on-the-go mobile printing and scanning capabilities — all in a cost-conscious package that provides the flexibility for growth.

Eco-friendly design

Kyocera recognizes the burden that business activities can place on the environment. We strive to pursue a harmonious balance between economic development and environmental preservation with these measures:

Power-saving sleep mode; duplex mode; combine copy mode; low noise levels.

Standard duplex printing reduces wasted paper and paper costs.

New toner design is even more eco-friendly and underscores Kyocera's commitment to being green.

Energy Star® compliant, low Typical Electricity Consumption (TEC).

Get the ECOSYS advantage

Kyocera's ECOSYS long-life technology creates a lower total cost of ownership for your business and less waste for the environment. Our patented long-life drum is separate from the toner cartridge and does not need to be discarded when toner is depleted.

This "toner only" concept means the toner container includes minimal component and materials, thereby creating less waste and less replacement cost—all without compromising the productivity and features you need.

Big office functionality now comes standard in a compact office package with all the features you need to **grow**

Produce vivid color documents up to 1200 dpi (at reduced speed).

Use the Kyocera Tiered Color System to monitor and control costs for color output.

Detect and remove blank pages when scanning or copying with Blank Page Skip.

Output speeds up to 22 pages per minute.

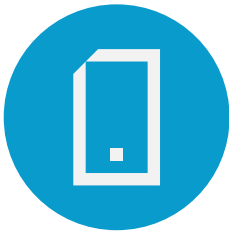

Standard Wireless and Wi-Fi direct access.

Mobile productivity **on-the-go**

With Kyocera's mobile solutions, virtual offices are a reality. Increase your productivity on-the-go without the need to install any printer drivers. Transform your print and scan workflow into a mobile experience with the following options:

Kyocera Mobile Print

Scan-to and print-from your smart device with this Kyocera business application.

Mopria®

Print to your ECOSYS printer from an Android (4.4 or later) device.

Apple AirPrint®

Print to your ECOSYS printer from any iOS or OS X device on the same network.

Secure access delivered

Kyocera Card Authentication provides tight control on what is being printed. With a simple swipe to an HID proximity card, users gain immediate access only to their authorized job function and features on the ECOSYS MFP and printer. It's a cost-effective, value-added feature for any business.

Authentication using passwords or HID proximity cards.

Local and network authentication (MFP models only).

Private Print function with password protection and User Authentication.

PDF Encryption restricts access for displaying, printing and editing PDFs.

Security watermark option via KX driver.

Restrict features like copy, scan and fax.

Remote monitoring redefined

Optimize device uptime and reduce costs with KYOCERA Fleet Services (KFS), a highly-secure, cloud-based monitoring solution that offers real-time visibility into:

Device Status: Take a proactive approach to error resolution to ensure that your fleet operates at peak performance. Maximize up time with scheduled off-hour maintenance.

Usage Trends: Identify print, copy and scan trends to make more informed decisions that will further optimize your workflow.

Supply Levels: View consumable levels to prevent unnecessary workflow interruptions.

Counter Activity: Eliminate administrative burden with automatic meter reading, for accurate and timely billing.
